## Letter of Appreciation

We laud *Ayaan Jamal* (Class XI, DPS, R K Puram, New Delhi) for his social service endeavour – “*Little Lab*”. Little Lab, an early-stage Maths and Science learning project, aims to make scientific learning fun, is application based and focuses on low equipment activities.

Ayaan, demonstrated the benefits of his approach in making children better appreciate scientific concepts by holding workshops at New Delhi Municipal Corporation schools in May 2023. The workshops were very well conceptualized and delivered in an interactive mode. The presentation of the experiments and explanations were commendable.

It is heartening to see *Ayaan Jamal* doing social work to reach out to young minds and activate their scientific curiosity.
